

Sol's Arc works towards **improving learning outcomes** for every last child.

The Problem

- ▼ More than 50% of the children in India today are not at grade levels.
- ▼ A typical student is at least two grades behind the level that is expected for their age
- ▼ More than 15% of children in India will have some form of disability

*Source: World Bank data, Annual Status of Education Report (2014)

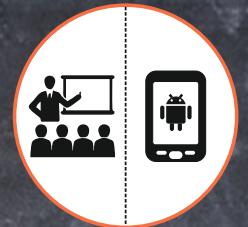

Sol's Arc through its project "Special Edge" works towards resolving this huge crisis in education that India faces today by tackling learning through an inclusive approach.

We create innovative, equitable and scalable learning solutions based on principles of universal design for improving learning outcomes for every last child.

Our Solution

Sol's ARC empowers and builds teacher capacity to -

Identify why a learner is struggling

Demographics

Disabilities

Mental Health

Understand how to include all children in the classroom

Trainings

Videos

Resources

Provide content to improve learning for all children

Assessment of learning levels

Adaptive Curriculum

Teacher Training

Red Flag Tool

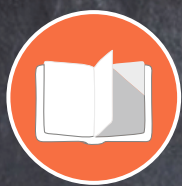

Inclusive Class

Learning Content

Implementing and Scaling the solution

Sol's ARC

Develops Inclusive Learning Solutions

Implements Through Partnerships

Scales Through Government

Sol's ARC implements the solution by leveraging technology and building capacity of existing educational organizations that focus on improving learning outcomes for all children.

Government Investment Trends In Education

1952-1985

FOCUS ON SYSTEM & POLICIES

• Progressive policies

1986- 2007

FOCUS ON INFRASTRUCTURE & NUTRITION

• Improved infrastructure & enrollments

2008 to present

FOCUS ON QUALITY & EQUITY

Current status

• More than 50% of children below grade levels

The Government investments for education in India have been evolving in priorities over a period of time. The current trends clearly prioritise focus on quality and equity in education. Sol's ARC will partner with Government to scale the intervention where the Government can adopt the screening app as well as integrate the capacity building modules in their existing teacher training programs.
